PRECISION PRINTING TECHNOLOGY

Precision printing is inspired by photography and materials from the environment. Our technology reproduces every detail, even the fine lines that are too small for the naked eye. The rich tones and exquisite beauty created by advanced technology are what set AdaWall's design apart from the rest. To capture the detail in our original drawings and re-create them as wallpaper, our designs are printed using the gravure technique, which is a world-class printing method for achieving maximum detail and tone.

100% PURE WATER BASED INKS

High quality and precise printing begins with the finest ingredients. Water-based inks from Netherlands and Korea realize superb colour reproduction plus environment-friendly manufacture. What completes 100% pure water-based inks is the GSE colour dispenser, which provides optimized dispensing solutions.

CYLINDERS DESIGNED TO DELIVER PINPOINT ACCURACY

Precision printing can only be utilized with precisely engraved print cylinders that replicate even the minutest details.

Embossing sheets of nonwoven and paperback using a steel embossing roller and paper ball work in conjunction with each other.

STRICT QUALITY CONTROL SYSTEM

AdaWall's extensive expertise in quality management enables the production of the World's Finest Products. The process of quality is supported by a specialized line inspector. Specialized line inspectors are checking at key sections to support the process of quality management, which is capped by a rigorous final inspection. All the finished products are put to test and trial application.

ENVIRONMENTAL RESPONSIBILITY

In AdaWall factory, we are aware of our responsibilities towards the environment and also we are wholly committed to improving manufacturing processes in line with this. We choose to work only ethical and accredited suppliers' products and we make business decisions based on the impact on the wider, global environment. TR Bilge bir seyyah, herkesin takdir edeceği manzaraların bulma umuduyla diyar diyar dolarnır dururmuş. Yedi düvele görmediği, gezmediği yer kalmayana kadar seyahatlerine devam etmiş. Günlerden bir gün kendini ufak bir köyde bulmuş. Bu köyde insanların hepsi gülümser şarkı söylermiş. İlk gördüğü yerliye sebebini sormuş “ Ben her yeri gezer dururum, ancak bu kadar mutlu insan ilk defa bir arada gördüm. Neden herkes bu kadar neşelidir burada?” Adam Seyyah’a dönmüş ve “Etrafına bak, ama dikkatli bak. İşte o zaman anlarsın. Bize her günün kıymetini bilip sürekli gördüğümüz manzaraları takdir etmeyi öğrendik.” demiş. Seyyah başını kaldırmış ve çevresine baktığında aklına gelen tek bir kelime olmuş: “zamansız”. Gezdiği yerlerde dikkatini sürekli gördüklerine hiç vermediğini fark etmiş. Aslında aradıkları her daim gözüünün önünde, klasiklerin içindeymiş. Adawall olarak farklı desenleri çok seviyoruz. Ancak gezginler gibi her yeri dolaşsak da farklılıktan sonra durgunluğa ve klasiğe dönüşü de takdir ediyoruz. Seyyah koleksiyonu da bize tam olarak bunu hatırlatıyor. Zamana yenik düşmeyen, her daim ilgi görecekl klasik desenler ve renkleri bu koleksiyonumuzda size sunuyoruz. Seyyah; seyahat eden, uzak ülkeleri gezip dolaşan gezgin olarak tanımlanmakta. Yeni koleksiyonumuz Seyyah da sizi diyar diyar gezdirip yine dinginlikte huzur bulmaya davet ediyor.

EN A wise traveler would wander the land in hope of finding sights that would be appreciated by all. He continued his travels until there was no place he had not seen nor visited in the seven heifers. One day he found himself in a small village. All the people in this village were smiling and singing. He asked the first local he saw why “ I always travel, but this is the first time I’ve seen so many happy people together. Why is everyone so cheerful here?” The man turned to the Traveler and said, “Look around, but look carefully. That’s when you’ll understand. We learned to live every every moment of the day and appreciate the sights we see all the time.” When the traveler looked up and looked around, only one word came to mind: “timeless”. He noticed that he did not always pay attention to what he saw constantly in the places he visited. What he was seeking has always been in front of his eyes, in the classics. As an Adawall, we love different patterns. Although we seek everywhere like travelers, we also appreciate the return to stillness and classicism after difference. The Seyyah collection reminds us of exactly this concept. In the collection, we offer you classic patterns and colors that do not age with time and will always attract attention. Seyyah, which means a constant traveler who wanders far away lands, invites you to tour the land and find peace in the stillness.

RU Мудрый странник бродил по земле в надежде найти достопримечательности, которые бы оценили все. Он продолжал свое путешествие, пока во всем мире не осталось места, которое он не видел и не посещал. Однажды он оказался в небольшой деревне. Все люди в этой деревне улыбались и пели. Странник спросил у первого попавшегося местного жителя, которого он увидел: «Я всегда путешествую, но впервые вижу столько счастливых людей вместе. Почему здесь все такие веселые? » Мужчина повернулся к Страннику и сказал: «Посмотри вокруг, но посмотри внимательно и тогда ты поймешь. Мы научились жить каждое мгновение дня и ценить достопримечательности, которые видим постоянно ». Когда странник поднял глаза и огляделся, на ум пришло только одно : «неподвластно времени». Он заметил, что не всегда обращал внимание на то, что постоянно видел в тех местах, которые посещал. То, что он искал, всегда было у него на виду, в классике. Мы, Adawall, любим разные мотивы в дизайне. Мы как странники, везде пытаемся найти гармонию и красоту, ценим при этом спокойствие и классицизм. Коллекция Seyyah напоминает нам именно об этой концепции. В этой коллекции мы предлагаем вам классические узоры и цвета, которые не стареют со временем и всегда будут привлекать внимание. Seyyah - вечный странник, который блуждает по далеким землям, приглашая вас совершить путешествие по миру и обрести покой в тишине.

TR Geometrik şekillerin de aynı insanlar gibi birtakım karakteristik özellikleri vardır. Bu sayede tanımlanır ve sonsuz düzlemin bir parçası haline gelirler. “Sekizgen”, “sekiz açısı ve kenarı olan şekil” anlamına gelen “Octagon” da geometrinin beşgen, altıgen, yedigen gibi popüler çokgenlerinden biridir.

Sonsuz düzlemdeki şekillerden ilhamla, tasarım sürecinde bağımsız estetik anlayışını benimsediğimiz yepyeni bir koleksiyon seçkisi hazırladık. Modernliğin ve şıklığın aynı ölçüde ve ustalıkla harmanlandığı, geometrik şekillerin ve modern mimari esintilerin çağdaş tasarımla buluştuğu, birbirinden iddialı ve göz alıcı desenlerin hakim olduğu Octagon koleksiyonu sizlerle. Benzersiz ürün içeriği ile size özel eşsiz ve vizyonel bir yaşam alanı deneyimi vad ediyor.

Hayal gücünüz kadar güçlü çizgilere, bir duvar kağıdı koleksiyonunda bulabileceğinizi hayal dahi edemeyeceğiniz ikonik bir tasarım yeniliğine sahip. Üstelik gümüşün, altının, vizonun muhteşem zarif dokusuyla gözlerinize inanamayacağınız kadar sihirli. Koleksiyon portföyümüz genişledi, fakat sihir hiç değişmedi. Yeni koleksiyonumuz Octagon ile sizleri bir kez daha şaşırtmaya hazırız.

EN Geometric shapes also have some characteristic features just like people. They are defined and being a part of infinite plane through these features. “Octagon” means shape has eight borders is one of the popular polygons in geometry such as pentagon, hexagon and heptagon.

Being inspired by geometric shapes in the infinite plane, we embraced an independent aesthetic concept and prepared a very new collection book for you. Octagon is a wallpaper collection that modernity and elegance are blended in the same measurements with great skill, where geometric shapes and modern architectural breeze meet contemporary design and glorious and eye catching designs have a dominant role. Thanks to its very different content, it promises a visional and unique experience that is special for you.

It has strong lines, strong as your imagination and has iconic design innovations that you can never imagine that you may find in a wallpaper collection book. Moreover, it seems magical through the magnificent classy textures of colours such as silver, gold and mink. Our collection portfolio expanded but the magic is never changed. We are very ready to surprise you one more time.

RU Геометрические формы также имеют некоторые характерные черты, как и люди. Они определены и являются частью бесконечного плана через эти особенности. «OCTAGON» означает, что форма имеет восемь границ. Это один из популярных многоугольников в геометрии, такой как пятиугольник, шестиугольник и семиугольник.

Вдохновленные геометрическими формами в бесконечной плоскости, мы приняли независимую эстетическую концепцию и подготовили для вас совершенно новую коллекцию. OCTAGON - это коллекция обоев, в которой современность и элегантность сочетаются в одних и тех же размерах с большим мастерством, где геометрические формы и современный архитектурный ветер сочетаются с современным дизайном, а великолепный и привлекательный дизайн играет доминирующую роль. Благодаря совершенно разному содержанию, он обещает уникальные визуальные впечатления, которые будут особенными для вас.

У него сильные линии, сильные, как ваше воображение, и знаковые дизайнерские инновации, которые вы даже не можете себе представить, которые вы можете найти в книге о коллекциях обоев. Более того, он кажется волшебным благодаря великолепной классической фактуре таких цветов, как серебро, золото и норка. Наш портфолио коллекций расширился, но волшебство не изменилось. Мы очень готовы вас удивить еще раз.

TR Hepimiz sayılara ve kullanım yönlerine oldukça aşinayız, fakat sürekli dilimizde olmalarına rağmen derinliklerini sorgulama ihtiyacı duymuyoruz. Denizlerin figüratif sayısı yedidir, Büyükkayı yedi yıldızlıdır, yer ve gök yedi kattan oluşur, insan yedi çakralıdır... Birbirinden farklı din ve kültürlerde ise: İslam dinine göre kâinat yedi safhada yaratıldı. Katoliklerde yedi sakrament esastır, Yahudilerde kutsal şamdan yedi mumludur, mitolojide yedi esas Tanrı vardır, Mısır'da Güneş Tanrısı Ra yedi ruh-ludur, Tibet'te yedi Buda vardır, Çin'de kutsal yedi element vardır... Son olarak, yedi sayısını insan tarafından düzenleyici ve belirleyici bir rakam olarak da sık sık görmekteyiz. Örneğin; bir hafta yedi gündür, feng shuide iletişim sayısı yedidir, Kızılderililere göre yedi mevsim vardır ve tüm Japonlarda rakamların en uğurlusu yedidir... AdaWall'da yedi sayısından yola çıkarak yedinci kataloğuna verdiği "Seven" ismiyle, duvar kağıtlarının, desenlerinin birçok anlam taşımasının farkındalığını yaratmayı amaçladı. Tıpkı yedinin sadece bir rakamdan ibaret olmadığı gibi...

EN We are all very familiar with the numbers and their areas of usage, but we do not need to question their profundity, even though they are always in our language. The figurative number of the seas is seven, the great bear has seven stars, the earth and the sky have seven layers, the human has seven chakras... In different religions and cultures, for instance, according to the Islamic religion, the universe was created in seven stages. The Catholics recognize seven sacraments, Jews' sacred candelabrum has seven candles, there are seven essential gods in mythology, the Egyptian sun god Ra has seven souls, there are seven Buddhas in Tibet, there are seven sacred elements in China... Finally, we often see the number seven as a regulatory and decisive figure by human. For instance; there are seven days in a week, Feng Shui's contact number is seven, there are seven seasons for the Indians, and the luckiest number for Japans is seven... AdaWall also aimed to create awareness of the many meanings of the wallpapers, patterns, with the name of Seven for its seventh catalogue. Just as Seven is not just a number...

RU Мы все хорошо знакомы с цифрами, числами и правилами счёта, а также с их использованием. Но мы никогда не задумываемся над их значениями, хотя они каждый день у нас на языке. У Большой Медведицы семь звезд, у земли и неба семь уровней. В разных культурах и религиях, например согласно исламской, Вселенная была создана в семь этапов. У католиков есть семь таинственных монастырей. У иудеев - семь священных подсвечников, в мифологии есть семь главных богов. В Египте у Бога Солнца Ра - есть семь душ. В Тибете - есть семь Будд. В Китае есть семь священных элементов. Наконец, мы часто рассматриваем число 7 как нормативную и решающую фигуру. Например, семь дней в неделе. Есть семь сезонов в соответствии с индейцами. И самый удачный номер для Японии - семь. AdaWall использовал в названии седьмого каталога цифру семь, чтобы создать осведомленность о множественном значении дизайна, чтобы подчеркнуть, что семь не просто число.

TR “Less is more”... Ludwig Mies van der Rohe isimli mimarın modernizm ile beraber popülerlik kazanan ve evrensel şekilde benimsenmeye hızla devam eden bu tabiri, “Beta” koleksiyonunun oluşum sürecinde bizi besleyen anahtar bir motto oldu. “Az olan daha fazladır.”, “Az ve öz.” gibi manalar ifade eden bu söylem, abartılı detaylardan arındırılmış sade ve akıcı bir tasarımın; gösterişli bir tasarımdan çok daha güçlü olabileceği iddiasını ortaya koymaktadır. İlk duyduğunuzda kulağa fazla cesur gelen bu yaklaşımı, yeni koleksiyonumuz “Beta”yı inceledikten sonra tekrar değerlendirmenizi öneririz! Minimalist tasarımda çığır açacak olan yeni koleksiyonumuz, modern sanatın çarpıcı sadeliğini ve sofistike zarafetin göz alıcı derinliğini kanıtlar niteliktedir. “Alfa” koleksiyonunun devamı özelliğinde olan ve ikinci cilt olarak tasarımılanan “Beta”, AdaWall’un zirvedeki yerini sağlamlaştıran çok özel bir tasarım serisini sizlere sunmaktadır. Geometrik şekillerin inceliklerle harmanlandığı konformist modelleri, soyut geçişler ile kompozisyon edilmiş ilham verici ikonik desenleri içeriğinde bulunduran “Beta” sizler için unutulması imkansız bir dizi deneyim olacak...

EN “Less is more”... That interpretation belongs to Ludwig Mies van der Rohe which is getting popularity and continuing to be embraced worldwide rapidly, was also a key motto for us because it impressed our designers in the process of creating “Beta” collection. His words mean some expressions such as “When it becomes less it seems like more.” or “concisely” that asserts when a modest and smooth design is pruned from exaggerated details, it becomes stronger than a flashy design. When this approach is heard for the first time, it may sound very assertive, but we suggest you to evaluate it again after you see our new collection “Beta”! “Beta” collection which will break a new ground on the minimalist design is somehow a proof for striking simplicity of modern art and glamorous deepness of sophisticated elegance. “Beta” is designed as the second vol of Alfa collection series that consolidates AdaWalls’ position at the peak by offering you a very special design series.

The collection consists of conformist models that geometric shapes are blended gracefully and iconic patterns are composed with abstract transition figures will become a unforgettable experience sequence for our customers.

RU “Меньше значит больше”.... Эта трактовка, принадлежащая Людвигу Мис ван дер Роэ и, которая продолжает набирать популярность и быстро охватывать весь мир, стала ключевым девизом для нас, потому что произвела впечатление на наших дизайнеров в процессе создания коллекции “BETA”. Эти слова означают некоторые выражения, такие как “когда становится меньше, кажется, что больше” или “лаконично”. Они утверждают, что скромный и гладкий дизайн, очищенный от преувеличенных деталей, сильнее, чем кричащий и вызывающий дизайн.

Когда это выражение слышится впервые, оно может звучать очень агрессивно, но мы предлагаем вам оценить его еще раз после того, как вы увидите нашу новую коллекцию “BETA”!

“BETA” коллекция создает новую почву для минималистского дизайна и, в некотором роде, является доказательством поразительной простоты современного искусства и гламурной глубины утонченной элегантности.

Коллекция “BETA”, разработанная как второй том серии коллекции “Alfa”, укрепляет позиции AdaWalls на пике популярности, предлагая вам совершенно особенную дизайнерскую серию. Коллекция, состоящая из конформистских моделей, которые изящно сочетают геометрические фигуры и знаковые абстрактные, переходные фигуры, станет незабываемой последовательностью впечатлений для наших клиентов.

TR Kısacık bir kelime ne kadar derin olabilirse o kadar derin; “Rumi”... Tam adıyla Mevlana Celaleddin Rumi... O sonsuzluğun ta kendisi. “Rumi”, ömrünü sevgiyi ve hoşgörüü yaymak için geçirmiş evrensel bir elçidir. Söyledikleri sadece Müslümanlar ya da Allah’a inananlar için değildir; O, herkese aynı şekilde kucak açmıştır. O yüzden herkes tarafından sevilmiştir. Hep “aşk” demiştir, fakat kastettiği aşk, insana duyulan değil, ilahi olan aşktır. O nedenledir ki, yaşadığı sürece dilinden aşk ve özlem hiç düşmemiştir. “Rumi” isimli katalogda, tasavvuf ve mesnevi esintileriyle özgünleştirilmiş desenlere, hoşgörü ve sevgi yumuşaklığında ruh okşayan renklere ve Anadolu’dan izler taşıyan dokulara rastlayacak, sizde uyandırdığı hissi çok seveceksiniz. TR “Kalinka” Rusya’nın ve Rus sanatının sembollerinden biri olarak kabul gören, Rusya’nın tüm dünyaca bilinen en popüler şarkılarından biridir. Rusça bilmeyenler genelde bu ismi bir kadın adıyla bağdaştırmaktadır. Oysa sanılanın aksine; “Kalinka” Rusya’da büyüyen küçük bir ağaç anlamına gelmektedir. Sözlerinden, bir kadına “benim ağacım, benim uğurböceğim, böğürtlenim” gibi naif yaklaşımlarda bulunularak onun tarafından sevilmenin arzulandığını anlayabiliyoruz. “Kalinka”, Rus kültür ve zevki, goblen tarzı ve dokusu bütünüyle karşımıza çıkmaktadır. İğne iplikle kumaşa işlenmiş resimler kadar göz alıcı ve halı kilim dokumalarındaki özen kadar etkileyici bir havaya sahip... O, denizlerin derinliklerinden bulunan ışığa, yıldızların ışıltılı parladığı gökyüzüne ve sık ağaçlarla kaplı bir ormana benzer. Biz de bu kataloğumuzu, modern desenlerle birlikte geometrik şekillere, ilgi çekici poster modellerine, aynı zamanda doğadan aldığı tropik, mermer ve benzeri tazeleyici etki yaratan doğa temalı dokulara sahip olarak tasarladık. TR Alfa insan biliminde; erkeklerin ekip olarak sorunsuz çalışabilmesi için aralarında belirledikleri ve kabul ettikleri lider pozisyonundaki kişi Alfa kelimesiyle adlandırılıyor. Lider... Erkek, sakin, kararlı, kendine güvenen, belki düz, belki biraz derin... Yalnız, asla şaşalı, karışık ya da dağınık değil; çünkü liderler, kendini göstermek ya da kanıtlamak için uçlarda davranmazlar, onların kendilerine özgü bir havaları vardır. Biz de bu katalogta bir lider benimsedik kendimize. Katalogumuzdaki desenler için iddiamızı sadelikte ve derinlikte sakladık. Katalogumuzda 7 tema vardır; Balıksırtı, Yaratıcılık, Beton, Sade, Modern, Tahta, Hasır.

EN Alfa, according to the human history, is a man, who set out to be able to work as a team without any problems and the person in the leading position they accepted was again called Alfa. Leader... Male, calm, determined, confident, maybe flat, perhaps a little deep... However, never hesitant, not mixed or scattered; because leaders are at the tip to show or prove themselves they do not behave, they have their own air. Also, their self-confidence is quiet, simple. It is significant. Sometimes, for them to be assertive, the word is hidden in the depth of the simplicity. Here we are when we designed our catalogue, we brought such a leader before our eyes. This catalogue has 7 themes: Herringbone, Creativity, Concrete, Plain, Modern, Wood, Wicker.

RU Альфа - если взглянуть на историю человечества - это человек, который избирался и утверждался на позицию лидера в группе мужчин для их беспроblemной работы в команде. Лидер - мужчина, спокойный, решительный, уверенный в себе, возможно слишком прямолинейный, глубокий. Однако, никогда он не будет нерешительным, неуверенным или неупорядоченным, потому что лидеры не бросаются в крайности, чтобы показать себя или что-либо доказать; они сами устанавливают правила. Помимо этого их.... уверенность в себе тиха, спокойна, но несет глубокий смысл. И даже иногда вся суть их уверенности спрятана в простоте, кажущейся такой на первый взгляд. Наша команда, создавая этот каталог, представляла себе именно такого лидера. В этом каталоге 7 тем: Herringbone, Creativity, Concrete, Plain, Modern, Wood, Wicker.

TR Efsanelere konu olmuş, üzerine olağanüstü betimlemeler yapılmış, kuşların hükümdarı, hastalıkların devası ve bilgi dehası ANKA... Alev alev kanatlarıyla havada süzülen görkemli bir ateş sanki! Anka'ya ulaşmak isteyen kuşların, Kaf Dağındaki zorlu engelleri aşmaları gerekiyormuş... Yolculuğun sonunda sadece otuz kuş (Si: Otuz, Murg: Kuş) Kaf Dağına ulaşabilmiş. Kuşlar Anka'yı Kaf Dağında bulamayınca bu yolculuğun kuşların hükümdarı Anka'ya değil de, kendilerine yaptıkları bir iç yolculuk olduğunu fark etmişler. Kendi aleviyle kendisini yakıp yeniden doğabilen Anka gibi AdaWall da ana firmamızdan Ateş'in Öz'ünden doğdu. Böylece ilk kataloğumuz Anka'nın hikayesini AdaWall'un amacıyla özdeşleştirdik. Kataloğumuzda 4 tema vardır: Tahta, Taş, Yaratıcı, Geometrik.

EN Anka is a bird which takes place in legends and extraordinary portrayal. It is different from others in the same kind; Anka is the sovereign of the other birds. It is able to burn itself with its flame and reborn itself on its own again. Is it possible not to wonder about such a bird, while there are many things about it to be mentioned? Under this circumstance, all bird species start to wonder about it and decide to reach Anka. On this journey, the birds which are weak and tired can't continue. Consequently, only thirty birds (si: thirty murg: bird) remain and perform the success of reaching Anka. On the other hand, the ones that arrive can't find Anka and understand it was an inner journey which they made to find themselves. There are reasons why we found "Anka" very meaningful as a first catalogue name. We identify Anka with our newly established wallpaper facility, the purpose of this facility and our company story. To begin with, AdaWall is born out of -metaphorically from its ashes- its main company Öz Ateş which can be translated as the core of fire in English. Just the same way as Anka's rebirth. Anka Collection includes 4 themes: Wood, Stone, Creative, Geometric.

Как птицы, которые хотят добраться до Анки, так и фабрика AdaWall, начиная свой путь с импорта обоев, и, получив достаточные знания и опыт, приступила к их производству. Для первого каталога фабрики AdaWall, который оставил заметный след в секторе производства обоев, мы выбрали имя Анка, вдохновившись историей возникновения нашей фабрики. В этом каталоге представлены 4 темы: Wood, Stone, Creative, Geometric.

NON-WOVEN BACK POSTER/MURAL/ФОТООБОИ

TR Küçük çocuklar hayal eder. Daha büyük olmayı hayal eder. Kahraman olmayı hayal eder. İster DC Süper Kahramanlar, isterse sevilen animasyon karakterleri olsun, bu efsanevi karakterler hayal gücünü bir çocuğun dünyasına uyacak şekilde yakalar ve teşvik eder. Bu anında tanınabilir ve istek uyandıran karakterler, çocukların sadece süper kahramanlar gibi değil, aynı zamanda süper kahramanlar gibi rol oynamalarına da izin verir: Batman ve Süpermen, Tom ve Jerry, dostluk temalarını pekiştirir, aynı zamanda kardeş bir rekabeti yansıtır -arkadaşların en iyisidir, aynı zamanda en iyi düşman! Looney Tunes, bir çocuğun hayatına yüksek enerjili mizah ve eğlence getiriyor. Çocuklar bu karakterleri televizyon aracılığıyla, ebeveynleriyle alışveriş yaparak ve çoğunlukla oyuncak ve giyim sektöründe tanırırlar. ADAKIDS, duvar kağıtlarımız biçiminde, bu karakterleri çocuklar için kendi yatak odalarında hayata geçiriyor.

EN Little children dream. They dream of being bigger. They dream of being a hero. Whether it's the DC Super Heroes or the well-loved animation characters, these legendary characters capture and stimulate the imaginations in a way that fits into a child's world. These instantly recognizable and aspirational characters allow kids to role play, not just as any superheroes but as the ultimate superheroes: Batman and Superman, Tom and Jerry reinforce the themes of friendship but reflect a sibling rivalry -the best of friends but also the best enemies! The Looney Tunes bring high-energy humour and fun to a child's life. Children know these characters through television, shopping with their parents and mostly in the toy and clothing sector. ADAKIDS brings these characters to life for children in their bedrooms in the form of our wallpapers.

RU Маленькие дети мечтают. Они мечтают стать взрослыми. Они мечтают стать героями. Будь то супергерои DC или любимые анимационные персонажи, эти легендарные персонажи захватывают и стимулируют воображение таким образом, что вписываются в мир ребенка. Эти, мгновенно узнаваемые, и вдохновляющие персонажи, позволяют детям играть в ролевые игры не просто как супергерои, а как настоящие герои. Супергерои: Бэтмен и Супермен, Том и Джерри усиливают темы дружбы, но отражают соперничество между братьями и сестрами - лучшие друзья, но и лучшие соперники! The Looney Tunes приносят высокую энергию юмора и веселье в жизнь ребенка. Дети знают этих персонажей из телевизора, шопинга с родителями и, в основном, из сферы игрушек и одежды. ADAKIDS воплощает в жизнь эти символы для детей в собственных спальнях в виде наших обоев.

POSTER (MURAL) INSTALLING INSTRUCTIONS

AKUSTİK DUVAR KAĞIDI ACOUSTIC WALLPAPER АКУСТИЧЕСКИЕ ОБОИ

TR Gürültü, zaman zaman farkında olduğumuzda bizi rahatsız edip kaçıran, zaman zaman ise farkında olmadığımız fakat bizi içten içe yoran bir çevre unsurudur. Buna nazaran tasarımcılar ve iç mimarlar daha çok göze hitap eden çalışmalar yapıyorlar ve bu durumu atlıyorlar. Fakat artık kulağa hitap eden çalışmalar yapmanın vakti geldi. AdaWall, bu iş için kolları sıvadı ve Dünyada bir ilk olan AdaWall Akustik Duvar Kâğıdı serisini oluşturdu.

EN Noise is an environmental element that sometimes make us escape when we are aware of it, and sometimes we are unaware of it, but annoys us deeply. Besides these designers and interior architects try to make works which mostly appeal to the eye, they do not consider this. But it is time to make works which appeal to ear any more. AdaWall gets ready to do this and has produced to the first AdaWall Acoustic Wallpaper series in the World.

RU Шум- это элемент окружающей среды, который когда мы его осознаем раздражает нас и которого мы избегаем, а когда не осознаем его, является причиной навалившейся на нас усталости. Несмотря на это, дизайнеры и архитекторы по внутренней отделке проводят работы, которые в большей степени воспринимаются визуально и упускают из виду эту ситуацию. Но теперь настало время обратить внимание на работы, которые влияют на наш слух. AdaWall закатали рукава для выполнения этой задачи и создали серию акустических обоев AdaWall.

APPLICATION INSTRUCTION

PRODUCT CONTROL

Check the order, color, and pattern of the product, if available, before applying the glue. Check if there is a defect in the product by placing it on a surface. If your acoustic wallpaper is patterned (not a solid color), you can start the application after making sure that the pattern in each part matches with the other one on the corresponding part.

PRODUCT APPLICATION

1. The surface of the wall to be applied should be completely clean and smooth.
2. Apply wallpaper glue to the back of the Acoustic Wallpaper. You should use a brush to distribute the glue evenly behind the acoustic wallpaper.
DO NOT FOLD THE GLUE APPLIED ACOUSTIC WALLPAPER!
3. Glue applied acoustic wallpaper must be applied within 10-20 minutes.
4. Make sure that the first part to be pasted is leveled and smooth when pasting. If you are using a spatula or trowel for sticking the acoustic wallpaper to the wall, make sure that the spatula or trowel does not damage the wallpaper surface. You can damage the product's surface if you don't use the tools such as trowel, spatula and roller gently.
5. During the application, make sure that the glue does not come out on the surface of the acoustic wallpaper.
6. Apply the first part to the wall, and apply the second part next to it. If there is a pattern in the product, match the patterns and continue the application.
7. If there are any adhesive stains left on the surface of the product, wipe them off with a dry sponge.

RECOMMENDATIONS FOR THE APPLICATION OF THE PRODUCT IN LIVING SPACES

1. Applying acoustic wallpapers on opposite walls will increase the acoustic efficiency of the room.
2. Glass products in the room (such as windows) may disrupt the acoustics of the space.
3. In the places where you applied acoustic wallpaper, pay attention to closing the curtains of the windows.
4. You can also apply our acoustic wallpaper to the ceiling of your room. For a professional acoustic environment, application of the product to 4 walls and ceilings creates the most efficient acoustic environment.
